## THE CLEANING SOLUTION

*Your solution to a cleaner house  
...a cleaner world... naturally!*

## about us

### *The Cleaning Solution believes in a cleaner world naturally!*

*"We have a conscience."*

The Cleaning Solution is about change. We are very different from most cleaning companies. Not only do we leave your home clean, we leave your home safe to come home to. We go even further in working to protect the environment, both locally and globally. We have a conscience. We leave your floors and surfaces safe for your children and your pets. You don't come home to a chemical "clean" smell.

We're at a crucial time here on Earth where the need for convenience and speed are greater than ever. With the population of the United States over

293,000,000, it is crucial that we consider the health of this planet, both locally and globally to sustain a safe place for us to live. We can get food served in minutes, prescriptions filled right away and germs and bacteria killed immediately. Some pain medications, once available only by prescription, are now available over the counter. Our need for a quick fix is surmounting, and not without a price. And what does this all have to do with The Cleaning Solution? Read on...

Did you know that according to the EPA, household products can contain hazardous ingredients such as organic solvents and petroleum based chemicals which can release volatile organic compounds (VOC's) into your indoor environment. Exposure to toxic household hazardous chemicals from ingestion, inhalation or skin contact can produce acute (immediate) or chronic (long term) health effects such as: headaches, fatigue, burning eyes, skin rashes, allergic reactions, runny nose, chemical sensitivity, cancer, cardiac damage, respiratory tract irritant, nervous system damage, and liver & kidney damage.

*"Celebrating Earth Day Every Day"*

## products

### *The Cleaning Solution proudly uses the following Shaklee Products:*

#### **Basic-I® Grease-Cutting Powerhouse**

Basic-I gets down & dirty when it comes to mega-scrubbing jobs on outdoor grease and grime. Intense cleaning agents penetrate, emulsify, and remove gritty grime without environmental damage. No phosphates, chlorine, borates, nitrates, dyes, or nasty caustic smell. Highly concentrated: One quart makes up to 32 gallons of hardworking cleaner. Rinses away easily and safely.

#### **Basic-H® The World's Most Versatile Cleaner**

Back in 1960, Basic-H was the first environmentally safe household cleaner on the market. Today, millions of bottles later, it's more loved than ever. Efficient, powerful, safe, biodegradable, and economical, Basic-H is the world's most versatile cleaner, period. Sixteen ounces makes up to 90 gallons to clean hard surfaces, woodwork, walls, floors, glass, mirrors, even cars. Anything you can clean with water, you can clean with Basic-H. No wonder it was named an official Earth Day product.

#### **Basic-G® Concentrated Germicide Tough on Germs, Gentle on Earth**

Bacteria, fungi, and viruses can wreak havoc on your family's health and safety. Used as directed, Basic-G tackles over 40 of these pesky microbes, including several animal viruses. That makes it an excellent choice for use in the kitchen, bathroom, or pet area. In addition to being economical - one quart makes up to 64 gallons - it's also EPA registered.

#### **At-Ease® Liquid Cleanser Scour without Scratching for a Bright, Clean Shine**

Protect your tub, sinks, and countertops from scratching with this non-abrasive cleanser. Its natural grease-cutting formula scours and polishes without scratching and then rinses away without residue. And because it cleans without ammonia, chlorine, or toxic fumes, your nose will appreciate it as well. Leaves behind a clean, fresh, citrus scent.
